5.10.5. The committee should have information about the total amount of remuneration that members of the supreme governing body and the executive board receive from other companies in the group, and oversee that the information in the annual report on the remuneration of the supreme governing body and the executive board is correct, true and sufficient.

The Board of Directors has not set up a remuneration committee. The overall principles for the performance based salary of the Board of Directors and the Corporate Management have been defined in the Company's overall guidelines for incentive pay to be recommended and adopted by the entire Board of Directors prior the approval of the general meeting.

6.1. Content and form of the remuneration policy

6.1.1. The Committee recommends that the supreme governing body adopt a remuneration policy applicable to the supreme governing body and the executive board.

The Company does not have an overall formalised remuneration policy since it is not deemed expedient. This is common practice in the international biotech industry.

6.1.7. The Committee recommends that if members of the executive board receive share-based remuneration, such programmes be established as roll-over programmes, i.e. the options are granted periodically and should not be exercisable earlier than three years from the date of grant. An explanation of the relation between the redemption price and the market price at the time of grant should be provided.
